

TRAINING WORKSHOPS

“Integration of Female Migrant Domestic Workers: Strategies for Employment and Civic Participation”

We are pleased to announce that most of the project's activities have been successfully completed.

One of the remaining activities includes at least one training workshop in each partner country [Germany Cyprus, Spain, Italy, and Greece] to raise awareness on existing policies, best practices and strategies as well as introduce new policy recommendations related to the integration of female migrant domestic workers as pertains to their employment and civic participation in Cyprus. This activity will target key stakeholders such as policy makers, NGOs and trade unionists working on issues specifically related to migration. Significantly, female migrant domestic workers will also attend some of the workshops where they will have the opportunity to voice their views and experiences.

The following are the finalised dates for the training workshops, in each country:
